# THE TALE OF RAGÙ

*It all started with Grandma*

*Bring your Grandma,  
and get a 10% off.*

Ragù was inspired by a young woman in her 30s, whose love for cooking started in her grandma's cozy kitchen.

From rolling pasta dough to tasting simmering sauces, she grew up learning that food isn't just about flavours, it's about sharing a piece of yourself.

One day, seeing her granddaughter's dream to become a chef, her grandma surprised her with a yearlong journey around the world to explore, taste, and gather inspiration.

Before she left, her grandma handed her a cherished family recipe book with a heartfelt note:

'wherever you go, take a piece of our kitchen with you, and remember that every dish made with care, feels like home.'

Now, she's come back to where it all began, bringing flavors from her travels to open a restaurant honoring her grandma's favorite sauce; Ragù.

With care, we welcome you.
